CATCHY TITLE

OFF TRAIL PROD MSRP: \$24.95

The premise of this film is quite simple... having fun! "Catchy Title" follows around a group of Utah rippers having fun in the pow, on urban rails, cliffs, backcountry features, park and pipe. Action footage as well as interviews give (option one) a documentary feel, but don't forget about (option two) which offers up a secondary edit that will be more of a "traditional" ski film with skiing and music. "Catchy Title" satisfies the music junky and narration junky in one fell swoop. Both versions will be on one disk. Alta, PCMR, Brighton, Mammoth, Timberline, Northstar-at-Tahoe, Salt Lake City, and backcountry.
